Address-31/207-A, Pathi Gounder Thottam, Ganapathy, Coimbatore-641006

OBJECTIVE

I am an experienced **React Developer** with hands-on expertise in building dynamic websites. As a **rational developer**, I am passionate about creating and designing user-friendly sites that deliver exceptional interactivity and seamless experiences.

- **5+ years of professional experience** in **User Interface Design** and **Front-End Development**, delivering intuitive and user-centric web applications.
- Additional expertise in **Backend Development**, enabling comprehensive full-stack development.
- Diverse skill set with extensive exposure to **startup environments**, fostering adaptability and innovation.
- Strong **communication skills**, allowing me to better understand requirements and collaborate effectively with teams and clients.

EXPERIENCE

REACT DEVELOPER | P2P IT SOLUTIONS

JAN 2022-APRIL 2025

Designed and developed intuitive interfaces that enhanced overall performance and provided a seamless user experience, simplifying complex tasks.

Roles:

- **Designed and implemented efficient user interfaces** for file uploads using **React** and **Ant Design Uploader**, optimizing the user experience for seamless file management
- **Implemented React E-Charts** to visually summarize data for **IP (Inpatient)** and **OP (Outpatient)** providing insightful and interactive data visualization.
- **Utilized Material-UI Table** to calculate and display the status of insurance claims, enhancing data clarity and interaction
- **Refactored legacy code** to align with modern development standards, enhancing functionality, maintainability, and performance.

REACT DEVELOPER | INTEGRAATE INNOVATIONS PRIVATE LIMITED

JAN 2021-DEC 2021

Developed a complete front-end framework for a **Document Intelligence platform**, implementing **end-to-end API integration** to efficiently extract and analyze data, and providing real-time insights through an interactive **React dashboard**.

ROLES:

- **Developed modules for PDF file upload** using the **React framework**, enabling seamless and efficient file management within the application.
- **Developed Redux modules** and **aggregate tables/grids** to create a comparison table, enabling the analysis and comparison of document data efficiently.
- **Proficient in using Axios** for seamless **API integration**, enabling efficient data fetching and handling within applications.
- **Implemented High-charts** for interactive **dashboard** and **analysis modules**, providing dynamic and insightful data visualizations.
- **Implemented React-Redux** with **actions and reducers** for seamless integration of various modules, ensuring efficient state management and data flow.

REACT DEVELOPER | PRIZM IT TECHNOLOGY

APRIL-2018-NOV-2020

End-to-end React development experience, specializing in **full-fledged UI application development** with advanced modules tailored for the insurance industry, ensuring high performance and user-centric design.

Roles:

- **Integrated High-charts** with **combination bar, spline, pie, and donut charts** to create dynamic and interactive data visualizations, enhancing data insights and user experience.
- **Implemented Flux architecture** in React components, utilizing key concepts such as **actions, dispatchers, stores, and view** to manage state and ensure efficient data flow within the application.
- **Utilized Ajax for API calls** and integrated **backend services** to enable seamless data communication and enhance application functionality.
- **Implemented Ag-Grid tables** in React for dynamic data management, integrated **React forms** for user input, and used **Bootstrap** for responsive and modern UI design.

REACT DEVELOPER | CODOTVU

APRIL-2017-NOV-2018

UI Website Developer with hands-on experience in creating **engaging and user-friendly websites** that deliver seamless user interactions and exceptional visual design. [co.vu]

Roles:

- **Developed authentication and authorization functionalities** including **Sign Up, Login, and Change Password** features using **React.js**, ensuring secure user access and seamless interaction.
- **Designed and integrated various client-side validation controls** to ensure data accuracy and improve user experience by preventing errors before submission.
- **Contributed to writing application-level code** to interact with **APIs and RESTful web services** using **AJAX** and **JSON**, ensuring efficient data exchange and seamless integration.

- **Developed API contracts** using **Node.js**, ensuring clear and efficient communication between frontend and backend systems.

EDUCATION

BE Mechanical Engineering | Sriguru Institute of Technology

2012 – 2015

Diploma Mechanical Engineering | Sri Ramakrishna Polytechnic college

2009 – 2012

SKILLS

- | | | |
|-------------------|--------------|----------|
| • React js, Redux | • JavaScript | • HTML5 |
| • CSS3 | • Node Js | • My SQL |
| • Axios | • Figma | • GitHub |

PERSONAL PROJECT

<https://legalperfect-ui.vercel.app/>

The project is currently under development and aims to provide a **centralized platform** where users can download all **legal documents** related to their property in one place.
